To Whom it May Concern,

I am delighted to take this opportunity to offer a testimonial to the therapeutic presence and skillful massage practices of Bob Coleman. I met Bob in the late 70's when I was simultaneously recuperating from a car accident and completing a dissertation in clinical psychology. I had chronic pain, muscular tension and lowered energy. Bob helped me tremendously with pain relief and deep relaxation through massage but he also taught me techniques of healthy breathing that I am still using today.

Bob continually functions as both a healer and educator in the community. And each time I have seen him over the years I am struck by the aliveness of his thinking and his diligent updating of his craft. He demonstrates a respect for life and a compassion for the human condition which permeates all that he does and particularly the atmosphere of his practice of healing and restorative touch. My recommendation is wholehearted.

Sincerely,

Leslie Gray
