

HILLENDALE CHIROPRACTIC CENTER

Dr. Kurt B. Olson

November 11, 1991

To Whom it may concern:

I worked with Bob Coleman for 5 years at the Columbia Pike Chiropractic Center. I found him to possess a highly energetic and focussed character. Patients expressed comfort with the manner that he conducted his massage therapy.

Bob had many Hispanic patients coming to the clinic that were sceptical and in some cases hostile to the concept of massage therapy. Hispanic women in particular have a cultural problem about a male doing body work. Bob was successful in breaking these barriers, and was very successful in motivating them to continue treatment.

Bob had an excellent patient rapport. Patients tend to benefit from the information he gives them on meditation, exercise, and diet because they are confident in the fact he practices what he preaches.

Bob's stamina and quiet positive attitude has always impressed me. I feel he would make an asset to any employer.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kurt B. Olson D.C.".

Kurt B. Olson, D.C., P.C.
